About touma

We Create Weddings that Reflect Character

"Not only the day of the celebration itself is important, but also the path that leads to it."

I fulfill dreams.

I create worlds that only exist for one day.
I change familiar spaces beyond recognition.
I create impressions that stay with a person for life.
I express the character of the newlyweds, their youth and lifestyle through decor.

WEDDINGS
By Touma Calanch

Concept Drawings

Concept Drawings

The history of each couple is unique, therefore, the agency team develops the concept and decoration of the celebration from scratch, selecting the best vendors. 3D drawings allow people to experience the space in a more natural way. They can see how everything aligns and easily picture it in space.

Opulent flair

Opulent Flair

A team of professional designers, architects, artists, decorators, and florists brings together innovation and art. Thus, ideas, dreams and wishes are embodied in a clear concept of the event, illustrated with sketches and drawings. Our commitment to innovative design is matched by our responsive client service. We thrive on challenges, and we look forward to working with you.

Endless Love

Endless Love

We strive to instill aesthetics, a sense of style to create the most beautiful moments in the history of your family

Ocean breeze

Ocean breeze

For us, every couple is unique so every wedding should feel personal. Different newlyweds, different guests, different ideas... But the main quality of our team and company is the unique atmosphere that we manage to create.

To Infinity

To Infinity

Decor is a multi-level work of a team of professionals. The absolute harmony of design, advanced technology and art is the basis on which the whole concept of our work is built. Designers and artists, under the guidance of the art director and creative director, develop the concept, and the designers work out its technical implementation.

Boho chic

Boho chic

Onsite, we evaluate the interactive properties of the decor, considering how the space will look by day and by night, and how people will move through it.

Glamours emeralds

Glamours emeralds

The result is a space in which all the details come together to create a pleasing and pleasurable whole.

Lost in forest

Lost in forest

We conduct rehearsals with you. After our team members have completed their work, we take a critical look at the entire project.

Beyond sunflower

Beyond sunflower

The planners know very well what kind of atmosphere should be created at the celebration, and how important harmony between the outside and the inside is. We will also be happy to help you arrange the details and add charm to the existing design.

Rustic gothic

Rustic gothic

During this final walk-through, we make subtle adjustments in keeping with our client's expectations & desires.

Sea romance

Sea romance

Touma Events team believes that on their wedding day, the bride and groom have only one task: to feel happy and special, to shine!

3D Projection Mapping

The purpose of projection mapping in events is to provide a more engaging experience for attendees, through visual stimulation. The idea is to use technology to manipulate lighting into varying surface types and turn common objects into interactive.
